

2014 Kathleen Blood Infection and Resulting Hospitalization Pictures

Kathleen Werner does not like to have pictures taken when she is not at her best.

Unfortunately, some of the situations have to be photographed.

On Wednesday night, 4/23/2014, Kathleen suffered a tooth crack while having dinner in the Progressive Care Unit (PCU) at Virtua Marlton (NJ) Hospital. She discovered a piece missing from a front tooth but did not have a mirror. Keith took a picture as soon as he was told about it and showed it to her. She will have to wait until she can be transported to her dentist to have this fixed. She obviously hates the way her smile was ruined.

Kathleen was transferred to Marlton Rehabilitation Hospital, on Monday, 4/28/2014. She was placed in Room 308 Door bed where the family visited her. Pictured below is Kathleen with our daughter Katherine in a "selfie" from one of the first days there.

After a few days confined to her room except for Occupational Therapy (OT) and Physical Therapy (PT) in either the 3rd Floor "GYM" or 2nd Floor "GYM" she wanted to get some sun. We tried the windows on the 3rd floor but she felt like going outside on the deck near the 2nd Floor Lounge and Dining Room. It was really sunny and nice so she enjoyed some time in the sun.
